To Micheal Rogers,

My name is Alfaro Garcia and I was told to look for a place for my mobile food trailer. The location I have found for my mobile food trailer is on the corner of King street and Morris ave. Secondly, if there's is any way you can help me receive a first class lincense to operate on the green of morristown, I would greatly appreciate it.

Sincerely,

Alfaro Garcia

Subject: Re: Tonight 7:30 p.m. - vote on funding the demolition of 2 fire-ravaged buildings at Blachley Place

To The Mayor, Council Members And Those Concerned Citizens-

After receiving this notice only 12 hours before this resolution is to be presented seems to be a limited time for neighbors to take notice, especially if many are now on vacation. I have followed the Master Plan with its emphasis on preserving our historic neighborhoods, and am somewhat set back by the administration presenting a case for total demolition at the town's expense, no less, rather than truly opening for discussion and unbiased investigation of alternatives. It may be that tonight a case will be made for safety or economics, but I find that if this is done with a reckless disregard for the character of the neighborhood, we will be losing an irreplaceable piece of what we have considered important in our Master Plan.

I only hope the Council will carefully weight any presentation insisting total demolition is the only answer, when cautious attention to this matter may preserve what I feel is worthy of saving.

FY 2015 Municipal Aid Program

Dear Mayor Dougherty:

Enclosed is one copy of the executed Agreements approved by the Department of Transportation for the above referenced project in the amount of \$250,000.00.

This project will be funded from the New Jersey Transportation Trust Fund Authority Act. State participation in the cost of the project is limited to 100 percent of the cost of the completed construction work including construction supervision, inspection and material testing, or the amount of the allotment, whichever is less.

The construction contract must be awarded by the municipality within 24 months from the date of grant notification. Failure to make an award by April 10, 2017 or to comply with the requirements of the Municipal Aid Regulations 16:20B and the Terms and Conditions of Grant Agreement for State Aid to Counties and Municipalities will jeopardize the use of State funds on this project.

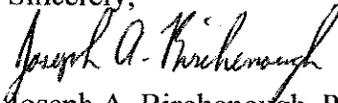

It is further noted that the project must be in compliance with the Americans with Disabilities Act, ADA, requirements for accessibility. The Municipal Aid Regulations and terms and conditions can be found on the Local Aid Website at:

www.state.nj.us/transportation/business/localaid/pubs.shtm

Through the approval of this agreement and all future agreements, the sponsor is required to provide phased submission updates that are to be tracked through the on-line SAGE System in accordance with the State Aid Checklist (see attached) for this project. Please note, that the Sponsor is responsible for continued updates with respect to the construction administration/management phase of the project in the SAGE System. The preparation of contract documents shall use the 2007 Standard Specifications as amended by the 2011 Special Provisions for State Aid Projects. All requirements of this program can be found in the State Aid Handbook, available at the above website.

If you have any questions regarding the above, please contact Adam Iervolino of this office at (973) 601-6707.

Subject: Truck traffic on Macculloch Ave

Councilwoman Deeb,

I would appreciate if you could check if Macculloch Avenue is still classified as a no truck route road which it has been for years. There has been an increased activity of large tractor trailer type vehicles and dump trucks using the street. I'm not talking about delivery trucks such as UPS, FedEx, Milk truck etc.. My main concern is the gasoline tanker truck that is making deliveries to the gas station that has reopened at the corner of Macculloch and Rte 202 (Mt Kemble Ave.) Many years ago we had the same issue with Island Transportation that Pete Demnitz graciously stopped. Even when Jay Delaney was Mayor and Morris Township told the dump trucks from a job site in the Township to use Macculloch Ave instead of Harter Rd which has a 5 ton weight limitation the residents of Macculloch were told this would never happen again. Macculloch will always be a cut through street which many of the residents have accepted as a fact of life. There is no reason though that the quality of life and safety concerns should be another issue residents have to live with caused by tractor trailers, tanker trucks and dump trucks which should not be traveling on Macculloch which as far as I know is still designated as one of the few no truck route streets in Morristown. We asked many years ago for signs similar to those the Township has posted for Harter Rd be placed at the intersections of Rte 202 and James St noting Macculloch is a no truck route or specifying a vehicle weight limitation. I believe there is a truck weight limitation sign on Hamilton Ct by the South St intersection. Not an advocate of more signs within the town but I think this is the only way drivers will know there is a restriction with respect to heavy tonnage vehicles on the street. I also believe this will allow the police department to enforce the no truck route regulation and ticket vehicles exceeding the allowable weight limitation.

Your assistance with respect to this matter will be greatly appreciated.

Subject: Invite to Atlantic Health System - Graduation for Dr Dean Ornish Program for reversing Heart Disease June 10th 11:30 AM

The first graduation of the Dr. Dean Ornish Program for Reversing Heart Disease, offered at the Chambers Center for Well Being at the Morristown Medical Center's Outpatient building, 435 South Street, Morristown, NJ will be June 10, 2015 at 10:30 am. I know this is short notice and your schedules are very busy, but I was just asked to assist in this graduation. Kindly let me know if your schedules allow you to attend

Also, I was specifically asked to invite you by a constituent you may know, Mr. Gary Iacobacci. He is a member of this inaugural class and will be graduating.

Some background on this groundbreaking program (also see attached);

Morristown Medical Center is only the SECOND hospital nationwide to offer this new. The first was UCLA Medical Center.

AHS's team of specialists traveled to California to be trained by Dr. Cornish's team.

The first cohort of 11 patients is completing their 72 session program. The patients have experienced significant improvements in their exercise endurance, energy level, weight loss, reduction in medication and overall well-being. Medicare and private insurers cover this program for eligible diagnoses.

Sincerely,

The Dr. Dean Ornish Program for Reversing Heart Disease™

You may be just a phone call away from undoing your heart disease and taking back control of your life.

In 1977, Dr. Dean Ornish – Clinical Professor of Medicine at the University of California, San Francisco – discovered it was possible to reverse heart disease with changes in lifestyle, without drugs or surgery.

Over the years Dr. Ornish and his colleagues at the Preventative Medicine Research Institute (PMRI) proved that a revolutionary combination of a whole food diet, moderate exercise, effective stress management, and emotional support could not only save but transform people's lives.

After reviewing the powerful evidence, Medicare joined private health insurers in covering the *Dr. Dean Ornish Program for the Reversal of Heart Disease™* under the specially created category of Intensive Cardiovascular Rehabilitation or ICR.

Now you have access to this life-saving and life-enhancing program!

Individuals covered by Medicare may be eligible for *The Dr. Ornish Program for Reversing Heart Disease™* if they have experienced one or more of the following:

- A heart attack in the past 12 months
- Angina (chest pain)
