NOTICE TO PUBLIC SERVICE ELECTRIC AND GAS COMPANY ELECTRIC AND GAS CUSTOMERS

IN THE MATTER OF THE PETITION OF PUBLIC SERVICE ELECTRIC AND GAS COMPANY TO MODIFY ITS MANUFACTURED GAS PLANT (MGP) REMEDIATION COMPONENT WITHIN ITS ELECTRIC SOCIETAL BENEFITS CHARGE (SBC) AND ITS GAS SBC; DURING THE REMEDIATION ADJUSTMENT CHARGE (RAC) 23 PERIOD, AUGUST 1, 2014, TO JULY 31, 2015

Notice of a Filing and Notice of Public Hearings | Docket No. GR15111294 | OAL Docket No. PUC 18642-2015:

TAKE NOTICE that on November 5, 2015, Public Service Electric and Gas Company (Public Service, PSE&G, the Company) filed a Petition and supporting documentation with the New Jersey Board of Public Utilities (Board, BPU) in Docket Number GR15111294 requesting an increase in its Manufactured Gas Plant (MGP) Remediation charges in the Remediation Adjustment Charge (RAC) component of its Societal Benefits Charge (SBC), pursuant to N.J.S.A. 48:2-21 and N.J.S.A. 48:2-21.1. The Company's RAC has been implemented in accordance with prior BPU Orders which allow the Company to recover, through successive 7-year amortizations, reasonable costs incurred in the Company's MGP Program. This Program has been and continues to be carried out under the direction and supervision of the NJDEP. In this filing, the Company seeks an Order finding that its Program costs incurred during the RAC 23 period, August 1, 2014, through July 31, 2015, are reasonable for recovery, and the rates are proposed to be effective on or about March 1, 2016. Included in this filing is one seventh (1/7) of each of RAC 17 through RAC 23 Program costs. The Company requests that the Board increase its current gas RAC rates by \$2,537 million and increase the current electric RAC rates by \$3,195 million, for a total increase of \$5,732 million on an annual basis for customers receiving service under tariff rates.

The new proposed RAC charges for electric and gas customers, if approved by the Board, are shown in Table #1. The allocation to gas contract customers has been incorporated on the basis of the terms of the particular contracts and/or applicable Board Orders, rather than on a volumetric basis.

The approximate effect of the proposed increase on typical electric and gas residential monthly bills, if approved by the Board, is illustrated in Tables #2 and #3.

Based on the filing, a typical residential electric customer using 7,000 kilowatt-hours per summer month and 7,200 kilowatt-hours on an annual basis would see an increase in their annual bill from \$1,201.05 to \$1,201.04, or \$0.29, or approximately 0.02%.

A residential gas heating customer using 130 therms per month during the winter months and 610 therms on an annual basis would see an increase in their annual bill from \$555.71 to \$556.17, or \$0.46, or approximately 0.08%. Moreover, under the Company's proposal, a typical residential gas heating customer using 195 therms per month during the winter months and 1,310 therms on an annual basis would see an increase in their annual bill from \$814.15 to \$814.97, or \$0.82, or approximately 0.09%.

The Board has the statutory authority pursuant to N.J.S.A. 48:2-21, to establish the RAC charges to levels it finds just and reasonable. Therefore, the Board may establish the RAC charges at a level other than that proposed by Public Service. Therefore, the described charges may increase or decrease based upon the Board's decision.

Copies of the Company's filing are available for review at the Company's Customer Service Centers, online at the PSE&G Web site at <http://www.pseg.com/pseandgfilings> and at the Board of Public Utilities, 44 South Clinton Avenue, Seventh Floor, Trenton, New Jersey 08625-3251.

The following dates, times and locations for public hearings have been scheduled on the Company's filing so that members of the public may present their views. Information provided at the public hearings will become part of the record of this case and will be considered by the Board in making its decision.
