Morristown Mayor to join Climate Mayors

Mayor Dougherty Announces Morristown will Adopt and Support the Paris Agreement

MORRISTOWN, NEW JERSEY -- Mayor Timothy Dougherty of the Town of Morristown is joining the Climate Mayors (aka, Mayors National Climate Action Agenda, or MNCAA), a network of nearly 300 U.S. mayors representing over 60 million Americans - working together to strengthen local efforts for reducing greenhouse gas emissions and supporting efforts for binding federal and global-level policy making.

Climate Mayors recently released an [open letter](#) to President Trump to oppose his actions thus far against climate action. The geographies and populations of the cities involved are diverse in many aspects, allowing each city to bring a comprehensive set of perspectives and priorities to the network. Cities across the country are taking action, recognizing that the changing climate has tremendous implications for the livability, competitiveness and resilience of communities.

The Town of Morristown has joined Climate Mayors to mutually strengthen grassroots-level, city-led activity on undertaking climate action by cleaning energy sources, making Morristown's infrastructure efficient and growing the economy through investing in the sectors that enable a climate-compatible future.

For more information on Climate Mayors, visit their website at www.climate-mayors.org.

Signed,

Mayor Timothy Dougherty
Morristown, New Jersey
