FOR IMMEDIATE RELEASE:

Green Point Juicery Grand Opening in Morristown

WHAT: On Monday, February 26th, Morristown Mayor Timothy Dougherty will be attending a ribbon cutting ceremony at Green Point Juicery to celebrate the juice bar's grand opening and expansion to Morristown. First established in August 2015 in Verona, New Jersey, Green Point Juicery's mission is to provide fresh and delicious smoothies and cold pressed juices along with vegan food and snacks in a friendly, welcoming environment.

When asked why Morristown was chosen as their newest location, owner Eugene Onishkevich said, "Among our local regulars, we noticed several Morristown residents who would travel 30+ minutes, 2-3 times a week to Verona. An overwhelming number of Morristown customers were urging us to strongly consider Morristown for our second location. We quickly realized that Morristown was the perfect place to expand."

Named one of the "Best Juice Bars in NJ" by BestofNJ.com, Green Point Juicery opened its doors in Morristown in August of 2017 and offers a variety of cold pressed juices, healthy smoothies, salads, snacks, as well as homemade guilt-free desserts, soups, and more.

Recognized as a "Green Business" by Sustainable Morristown in December of 2017, Green Point emphasizes health by using only the highest quality ingredients that are organic, kosher, natural, vegan or vegetarian, and gluten free.

WHEN: Monday, February 26th, 2018 12PM

WHERE: 28 Speedwell Avenue, Morristown

Media outlets are invited to attend and cover the opening, Mayor Dougherty and Green Point Juicery owners will be available for comments.
