MEDIA RELEASE

January 4th, 2019

Department of Public Safety Launches a Facebook Page

The Morristown Department of Public Safety is pleased to announce that a new Facebook page has been created and published as we start 2019.

The Department of Public Safety, led by Director Michael Corcoran, is comprised of the Fire, Police, and Emergency Management Bureaus of the Town of Morristown and the goal of this new initiative is to enhance communication, collaboration, and the timely exchange of information with the people that we serve.

The Department of Public Safety recognizes that social media is a valuable means of enhancing our community outreach, in helping to identify and solve community problems, and as a means to increase our crime prevention and investigative goals.

The new page is accessible to anyone on Facebook by simply typing in Morristown Department of Public Safety in the search bar. Residents are encouraged to share this page with friends, family, and neighbors and we look forward to engaging with everyone as this initiative moves forward.
