Important Notice Regarding Repair Deposits/Guarantees

The inspections listed below must be successfully completed in the order shown to fulfill your permit application requirements and initiate the counting of time toward refund of your repair deposit:

***NOTE:** APPLICANT MUST CALL TO SCHEDULE ALL INSPECTIONS.

1. All forms and expansion joints shall be inspected prior to pouring concrete sidewalks and curbs. Road openings shall be inspected for proper asphalt repair dimensions, neat and square edges, and properly compacted subgrade of a suitable material prior to the placement of any asphalt.
2. Final inspection of concrete sidewalks and curbs shall occur after all forms are completely removed and all restoration work is complete. Proper finish and color per permit are required. Final inspection of road openings shall occur after final paving is complete, any special repair conditions are met, and all surrounding areas have been restored and are free of debris and loose material.

NOTE: Please allow ample time for inspections by DPW between the hours of 7:00 am and 3:30 pm Monday thru Friday, holidays excepted.

Repair deposits are refundable six months after work is completed. Guarantees are refundable after three years. All refunds are contingent upon successful performance of the completed construction and restoration work. Both refund dates are determined from date of successful final inspection.

Please schedule all inspections in accordance with this Notice.

You may contact DPW offices at 973-292-6672 or 973-292-6673 between 7:00 am and 3:30 pm Monday thru Friday to schedule inspections. Should you need any help with your permit, please contact us prior to submitting the application.

Thank you.
