Parking Consultant

Morristown Parking Authority

Policy regarding requests for free or discounted parking.

Morristown Parking Authority (MPA) has a long-standing policy to deny special requests for free or discounted parking by organizations and institutions.

Morristown is in many respects unique. It is the county seat, a regional center and, too, a small municipality of only 2.9 square miles; numerous houses of worship are located in town along with more than 100 tax-exempt organizations that provide useful public and community service functions.

Many of these organizations request free or discounted parking, and, for good reason. The Authority doesn't wish to question the merits of those requests. But, for the MPA to provide free or reduced rate parking to one would require the MPA Board of Commissioners to look favorably upon all requests from the many non-profit agencies located in town or those that utilize services in town.

The Morristown Parking Authority does not wish to weigh the merits of requests for discounted or free parking or to prefer one agency over another. And so it must deny all such requests.

It is the responsibility of the MPA, moreover, to meet the financial obligations to our bond-holders. Generating revenue to make those payments and to support the staff and facilities of the Authority are primary obligations. The Board of Commissioners makes an earnest effort to keep parking rates within a reasonable range and to offer free parking at various times to accommodate the needs of the town, its business community and its many non-profit organizations.
